SOFTWARE DEVELOPMENT PROJECTS

PET-LYFE | [\[Link\]](#)

(Sept, 2022)

(Welcome to PetLyfe — your trusted online pet accessory shop committed to providing cats and dogs with a wide variety of high-quality toys and accessories.)

- Utilized a MERN stack (MongoDB, Express, React.js, Node.js) to build a full stack application in 6 days in a collaborative team environment with full create, read, update, delete (CRUD) operations hitting all RESTful API calls.
- Created an application with a mobile-first approach and styled using Styled-Components and CSS3 with flexbox layouts.

SHILL | [\[Link\]](#)

(Nov, 2022)

(A social media platform that's niche down to the financial industry with integrations such as a live crypto updates)

- Made RESTful API fetch calls to an Express, MongoDB, Node.js backend handling all create, read, update, delete (CRUD) operations, and tested all backend routes during development using Postman.
- Used Mongoose to define schemas for MongoDB collections.
- Implemented ES6 tagged template literals with Styled-Components along CSS3 to provide style and flexbox layout

BOXING.COM | [\[Link\]](#)

(Dec, 2022)

(A Boxing e-commerce store utilizing Stripe payment integration and sanity.io to manage to database)

- Leveraged embedded Javascript, Vanilla Javascript, CSS3, HTML5, with partials to organize and display the visual aspects
- Wireframed and planned UI design of application using Figma, and created a database of images using PhotoShop.
- Utilized Git control during the production of the application with frequent commits until deployment.
- Utilized Sanity.io backend to focus on developing the application without having to worry about the content, file storage, and databases. Its Cloud State Management system made building scalable and modern e-commerce web applications more efficient ..

PROFESSIONAL EXPERIENCE

Army | (Hinesville, Georgia)

Dates (Oct 2016 – Oct 2020)

- Directed and monitored assignments for 4 other medics to ensure successful operation of the company healthcare system for 500 soldiers.
- assessed nature and extent of illness or injury to establish and prioritize medical procedures.

ListYourPad | (Remote)

Dates (Aug 2022 – present)

- Maintained and directed the content on web pages. Worked with content owners to get correct messaging & materials in the right places.
- Ensured and maintained all site standards are communicated and met.
- Built, supported QA, and tested using control practices for web content to continually optimize the website.
- Develop software for renting empty rooms in your house..
